Higher Education, Skills and Work-based Learning

The journal of The University Vocational Awards Council

Editor: Professor Paul Gibbs, Middlesex University, UK

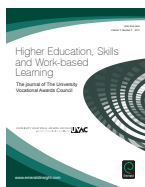

Review process: Double blind peer review

Established: 2011

Frequency: 3 issues per year

ISSN: 2042-3896

Volume: 1, 2011

To be launched in 2011, *Higher Education, Skills and Work-based Learning (HESWBL)* is the official journal of The University Vocational Awards Council (UVAC). Developing the role of higher education institutions in meeting the needs of the economy through high level skills

and work-based learning is a policy priority among UK governments and opposition parties and is core to a range of new government proposals and policies, particularly in the areas of employer engagement, graduate employability, workforce development and widening participation. Focusing specifically on the interface between higher education and the workplace, *HESWBL* will publish academic and scholarly practitioner-focused papers, providing broad international coverage of issues, developments and innovation in higher level skills, higher level work-based learning and higher education.

The coverage of the journal includes, but is not limited to:

- Development, marketing, delivery, validation and evaluation of higher level work-based learning
- Identification of how skills gaps and shortages can be addressed through higher level work-based learning

- International approaches to higher level work-based learning
- New technologies in the delivery and validation of higher level work-based learning
- Partnership approaches in the development and delivery of higher level work-based learning programmes and professional development
- Employer-developed training programmes as higher education qualifications
- Funding of higher level work-based learning
- Widening participation and social mobility in higher level work-based learning programmes
- Good practice examples of higher level work-based learning.

Submit a paper

Submissions to *Higher Education, Skills and Work-Based Learning* are made using ScholarOne Manuscripts, the online submission and peer review system. Registration and access are available at <http://mc.manuscriptcentral.com/heswbl>
